

## Writing Practice - Correcting Mistakes

1. Read the text and try to find the 12 mistakes:

Arthur and Madeline sat down together and was about to watch TV when Madeline said she was a surprise. She had gotten the security tapes from her dad which worked as security in their neighborhood. It wasn't common to watch camera footage, however, they didn't have anything to do, so they turned on the TV and started watching the houses, the street and all the people that were walked there.

These tapes were using by police officers when they wanted to look for anything suspicious. Madelaine had asked her father and anything she asks, she gets. Her father spoils her and never says no to nothing.

When the video started, Arthur started sweating and didn't seemed to like what he was seeing. Madeline asked him what his problem was, but he just got up and left her alone.

That was so stranger, despite she pretended not to notice and kept watching. Suddenly, she noticed why her boyfriend didn't like the video. He was in the video and kissing another girl! She couldn't believe, but she would never put up with that. She was sad but had an idea.

Instead of ringing up Arthur, she was calling her best friend Claire, they decided to go on a big trip and Madelaine posted a lot of fun photos on social media showing that she was having a great time. That wasn't the perfect way to forget him, but she was surely that was the best revenge!

2. Write the mistakes below and explain why:
